NEW ARRIVALS, NEW SIZES

As part of our commitment to continually expand our range, we are pleased to announce the launch of five new doors. As well as expanding on the ever-popular Ely and Seville doors, we also introduce a glazed version of the Valencia complete with aluminum inlays and inlaid glass.

To meet growing demand we have also introduced a number of new sizes to our range. Check individual door pages for more details.

JARGON BUSTER

CG

FINISH

CLOSED GRAIN

Our closed grain doors have a very smooth finish and have a UV coat of lacquer. This glossy look works particularly well in modern interiors.

OG

FINISH

OPEN GRAIN

Open grain doors are varnished but still maintain a very natural look and feel.

UF

UNFINISHED

UNFINISHED

An unfinished door prepared ready for your choice of varnish.

PF

PREFINISHED

PREFINISHED

Prefinished doors are ready to hang and are factory finished.

P

FINISH

PRIMED

A primed finish is where a door has been prepared with an undercoat ready for a top coat finish of your choice.

FD30

FD30

An FD30 fire door is rated to give 30 minutes of fire protection.

THE DEANTA STORY

010
011

Think we're just another door company? Think again. We are the most forward-thinking and innovative door company in the UK. See where we are now and where we are going.

DEANTA BESPOKE

Choosing made to measure doors is the right solution if you've been searching for the ideal bespoke doors to fit unusual door frames in your home, or if you want a signature door that is completely unique. Designing your perfect door couldn't be simpler.

THE DEANTA COLLECTION

012
013

Our collection of beautifully, handcrafted oak, walnut and white primed interior doors. The Deanta Collection also features FD30 fire doors as well as door lining sets, skirting and architrave.

BEING SUSTAINABLE

It's part of our quest to become a truly sustainable business where we have a net positive effect on the world around us. See what we're doing to make the world a better place.

FOLD BY DEANTA

088
089

Fold by Deanta is a brand new stylish divider solution. Room dividers offer a vast array of options to choose from and you can use any door from our range to complement your interior.

FURTHER INFORMATION

Our terms and conditions, information on how to best care for your Deanta door and how to find your nearest stockist.

THE DEANTA STORY

We are not just another door company. We are not like everybody else. We have worked within the door industry for more than 20 years. During this time we have established ourselves as a forward-thinking, innovative company with a mission to revolutionise the door industry. At Deanta, we have a strong set of beliefs that run through everything we do.

OUR COMMITMENT TO QUALITY

Customer satisfaction is Deanta's highest priority. We achieve this goal by continuously improving the cost effectiveness and performance of all our products and processes, as well as focusing on innovation.

Unlike other UK door companies, we have our own manufacturing facility. This not only allows us to control stock supply but it also allows us to have full control of the quality control process to ensure every door that leaves our factory is of the very highest standard.

This also enables us to be extremely competitive on price, as well as surpassing expectations on service and giving us the flexibility to have doors manufactured to exactly meet your specification.

OUR COMMITMENT TO THE ENVIRONMENT

We strive to operate our business in an environmentally and socially responsible manner and work hard to ensure that our business operations have as little impact as possible on the environment and society.

All of our prefinished oak and walnut doors and packaging materials are FSC® certified. We are proud of this. We take great care to make sure our business has as little impact as possible on the world around us.

Sustainability is a core part of who we are. We remind everyone we deal with – whether it be employees, suppliers or customers – that we like to leave things a little better than we found them. This forward-thinking attitude will not only help our business grow, but make the world a little better for all of us.

THE DEANTA COLLECTION

At Deanta we manufacture and supply a wide range of beautifully crafted stylish interior doors. Our collection includes oak, walnut, dark grey ash, abachi and white primed doors along with a selection of FD30 fire doors.

All Deanta doors are made to the highest standard with only the finest of materials ensuring you get the best from your contemporary Deanta door. Our design team tirelessly follow the door industry to come up with new, exciting designs to add to our ever-increasing collection. And our rigorous testing procedures ensure that only the very best doors make it to market.

Deanta offers the largest lippings available in the UK internal door market. All of our doors have 18mm lippings around the entire door meaning that a total of 32mm can be taken off the height and width of all our standard doors ensuring they will fit into any size opening. *

We only ever produce solid doors that are heavy and robust and are finished with specially selected crown cut oak and walnut veneers to give a real timber look and feel. Our white primed doors are produced in the same way as our oak and walnut doors and are ready for a one-coat finish.

All of our prefinished oak and walnut doors are FSC® certified.

* Please refer to the fire certs at deantawood.co.uk for advice on FD30 lippings.

GEORGIAN SKIRTING & ARCHITRAVE

Because we manufacture all of our products, we can guarantee that all of our timber comes from the same source. This results in a seamless match between your new door and the skirting and architrave. The Georgian skirting and architrave is designed to work well with our traditional doors.

FEATURES

- + Real American white oak veneer
- + Prefinished
- + Solid FSC® certified finger jointed oak core

SIZES

- + Skirting: 3.6M x 147mm x 16mm (Sold in packs of five)
- + Architrave: 90mm x 18mm
- + Door lining set: 133mm x 30mm (removable stop included)
(Set covers both sides of door)

TRADITIONAL SKIRTING & ARCHITRAVE

Because we manufacture all of our products, we can guarantee that all of our timber comes from the same source. This results in a seamless match between your new door and the skirting and architrave. The Traditional skirting and architrave is designed to work well with our period doors.

FEATURES

- + Real American white oak veneer
- + Prefinished
- + Solid FSC® certified MDF core

SIZES

- + Skirting: 3.6M x 147mm x 16mm (Sold in packs of five)
- + Architrave: 80mm x 16mm
- + Door lining set: 133mm x 30mm (removable stop included)
(Set covers both sides of door)

SHAKER SKIRTING & ARCHITRAVE

Because we manufacture all of our products, we can guarantee that all of our timber comes from the same source. This results in a seamless match between your new door and the skirting and architrave. The Shaker skirting and architrave is designed to work well with our modern, contemporary doors.

FEATURES

- + Real American white oak veneer
- + Prefinished
- + Solid FSC® certified MDF core

SIZES

- + Skirting: 3.6M x 147mm x 16mm (Sold in packs of five)

FOLDING DOOR SYSTEMS

Fold by Deanta is a brand new stylish room divider solution. Fold uses a high quality track to allow any of our doors to effortlessly glide across the system. Room dividers offer a vast array of different options to choose from. A room divider can bring that flexibility to a property that is not always afforded by merely using walls to separate rooms. Numerous configurations can be created to suit any home.

For more information on Fold by Deanta please visit our website at: www.deantawood.co.uk

CONFIGURATIONS

OPENING WIDTH		CONFIGURATIONS			
610MM	686MM				
1295MM	1447MM		2 + 0		
1908MM	2136MM		3 + 0		
1908MM	2136MM		2 + 1		
2521MM	2825MM		4 + 0		
2521MM	2825MM		3 + 1		

Please allow 10mm on outer frame width for recommended structural opening width.
Outer frame height can be adjusted between 2050mm and 2060mm dependent on flooring detail.
Linings are supplied oversize to allow them to be cut to suit.

3 + 0 configuration. Featured door: **Coventry white primed**, page 072

THE SYSTEM

Fold is a complete off-the-shelf solution allowing you to quickly and easily install your chosen configuration. We have specially designed the track and bearings and put them through rigorous testing to ensure they can withstand the extra weight you would come to expect from a Deanta door. This ensures that your doors will effortlessly slide every single time, and will last for years to come.

CHOOSING YOUR DOOR

Fold offers you the freedom to choose any door from the Deanta range to achieve the look you want. The doors below are the most popular choices for the system. We supply door linings in oak, walnut and primed to match any door you choose for your Deanta Fold system.

DEANTA BESPOKE

Your door. Your size. Your style. Our pleasure.

Whilst we are very proud of the Deanta Collection, we feel we should be able to offer our customers an extra special service to enable them to design their perfect door - quickly and easily. With this in mind, we are proud to launch Deanta Bespoke.

Choosing made to measure doors is the right solution if you've been searching for the ideal bespoke doors to fit unusual door frames in your home or if you want a signature door that is completely unique.

Design your perfect door and our skilled craftsmen will bring your ideas to life. We can produce any style of door - panelled, flush, grooved, shaker or fire door with any extras you desire. Choose from any inlays, bespoke beading (including flat beading, recessed beading), glazed or unglazed, any finish and in any size. In fact, the only thing stopping you from achieving your perfect door is your imagination.

We use only the finest, sustainably sourced timber. Our veneer options allow you to select a combination that reflects your taste while complementing your design.

Before we start creating your bespoke door we will provide you with detailed 3D drawings to ensure that your door is produced to your exact specifications and design.

For more information on Deanta Bespoke please visit our website at: www.deantabespoke.co.uk

THE DEANTA DIFFERENCE

With an established reputation for commitment to innovative design, unsurpassed craftsmanship and excellent client service, Deanta is committed to standing out from the crowd in the door industry.

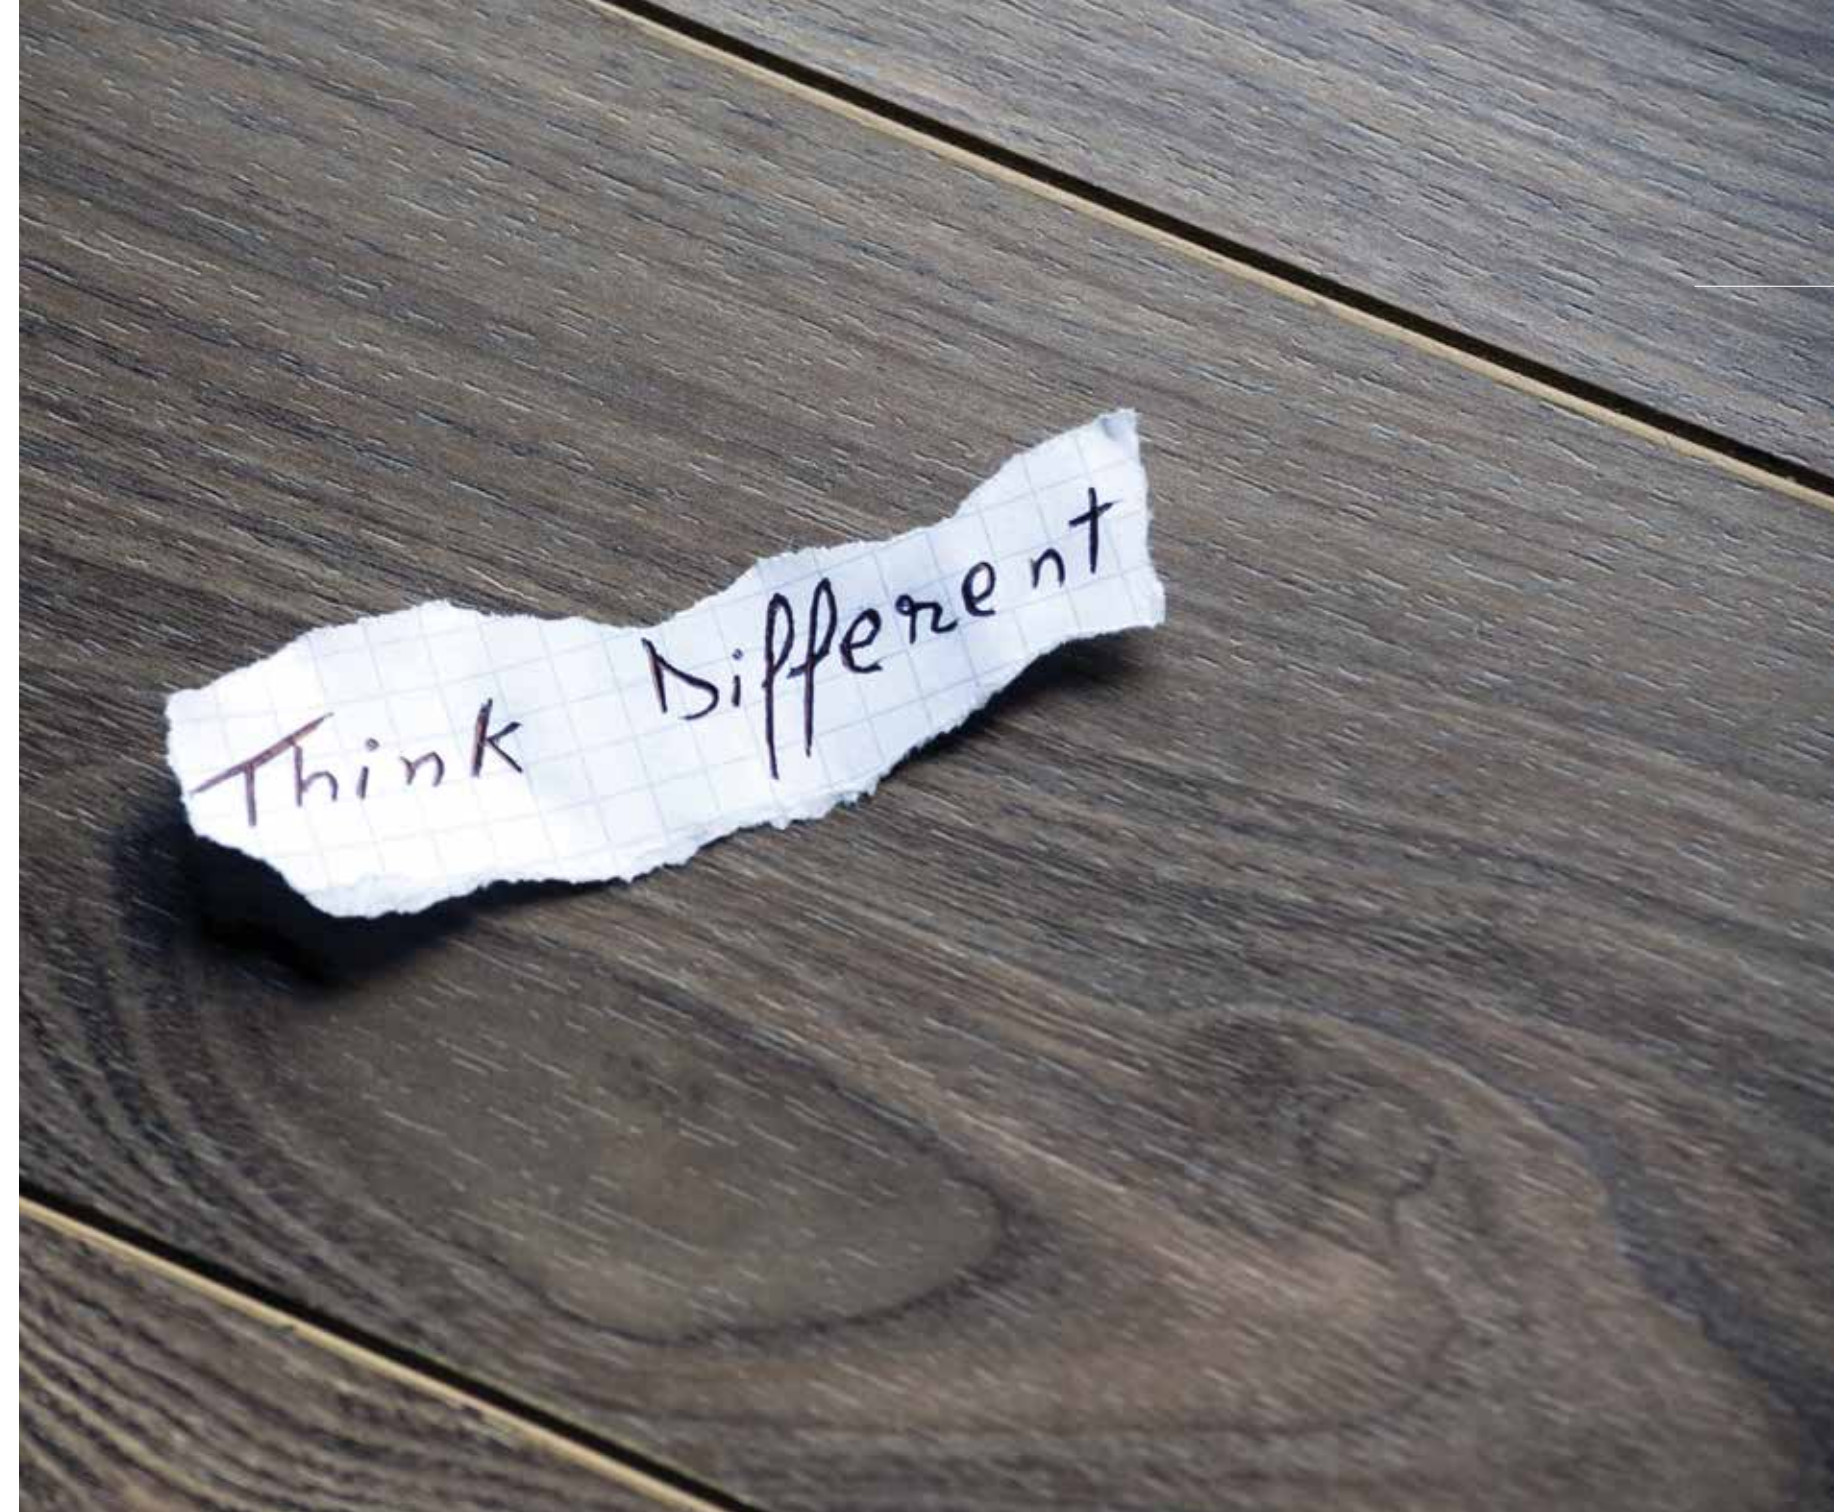

Unlike most door suppliers in the UK, we manufacture all of our doors in our very own manufacturing facility. This not only allows us to control stock supply but it also allows us to have full control of the quality control process to ensure every door that leaves our factory is of the very highest standard. We have rigorous quality control procedures in place to check every single door and we stand by this with a limited 10 Year Manufacturer Warranty on every single door.

Our team of highly skilled craftsmen, with the help of the latest state-of-the-art technology, achieve a perfect finish to an exceptionally high standard and lasting quality to every single door. Our team are able to offer bespoke doors to meet your exact requirements – in any size and any finish. For more information about our bespoke design service please refer to page 94.

We use only the finest, sustainably sourced timber. All of our prefinished oak and walnut products are certified by the FSC®. As we manufacture all of our doors we can guarantee that every single door is a responsibly sourced product.

Above all else, what truly makes us stand out from the rest is our customer care. We truly care about the experience our customers have when they deal with us. We welcome feedback and continually strive to offer unsurpassed customer care. We are a company that gives solutions, not problems.

Deanta has over 20 years of experience in the building and design industry which we strongly feel is fundamental in building strong, sound working relationships with our clients who are mostly door merchants – and to their customers – designers, architects and builders. That's why they keep coming back to us.

BEING SUSTAINABLE

We strive to operate our business in an environmentally and socially responsible manner. We work hard to ensure that our business operations have as little impact as possible on the environment and society. It is our mission to become a truly sustainable business where we have a net positive effect on the world around us. While there is always room for improvement, you can see our strategy to date below.

DEANTA'S COMMITMENT TO SUSTAINABILITY AND ENVIRONMENTAL RESPONSIBILITY

We want our business to have a net positive effect on the world around us. Here's how we do it.

- + We only ever source our wood from forests with sound environmental forest management schemes. Such schemes ensure the forest's biodiversity, productivity, and ecological processes, as well as protecting the rights of local people.
- + We are certified by the Forest Stewardship Council® (FSC®) and all of our prefinished oak and walnut doors and packaging materials are made from 100% FSC® certified material.
- + We are members of the TTF and therefore work in accordance with the TTF's Code of Conduct. This sets out the principles by which all TTF Members agree to behave, to ensure high standards of professionalism and integrity. It applies to members business as well as the products they sell. An important part of this process is verifying the due diligence we undertake to best ensure our products do not contain any illegal timber.
- + We manufacture our doors and, as such, can guarantee that all of our timber products are sourced from independently certified forests. We never rely on third-parties to source our wood ensuring that each and every door is made from responsibly sourced timber.

TERMS & CONDITIONS

We offer a limited ten year warranty on all our doors. Any Deanta door that warps* or splits will be covered by our warranty once the installation has met all guidelines. Please note colour variance in the wood is not considered a manufacturing fault as it is a natural product.

THE FOLLOWING MUST BE CARRIED OUT TO ENSURE THE BEST PERFORMANCE FROM YOUR DEANTA DOOR

- + All doors must be examined immediately on receipt and prior to installation as claims or faults will not be accepted once the door has been removed from packaging. This excludes manufacturing faults that occur after hanging.
- + All doors must be measured individually when having glass fitted. Deanta doors are hand-assembled, and as such, we cannot guarantee each aperture is the exact same size. We recommend you use a qualified glass fitter.
- + Doors must be stored horizontally on a clean, dry, flat and level surface.
- + Doors must not be fitted in a house that is freshly plastered and doors should only be delivered to site after all wet trades are finished and sufficiently dried. A moisture reading taken by an engineer must be recorded.
- + For doors to acclimatize, they should be left in the house prior to installation for at least seven days with the ambient temperature gradually increased over this period.
- + Should a door require alteration, cutting or planing, it must be immediately revarnished to prevent moisture absorption which may lead to warping or splitting.
- + Take no more than 32mm (24mm for FD30) off the width and height of doors in equal amounts on all edges.
- + Planed edges of prefinished doors must be refinished using three coats of internal wood finish.

- + Three coats of internal wood finish are required on unfinished doors and on any modifications to a prefinished door including the ironmongery and hinge cut-outs.
- + We recommend the use of three sets of hinges per door.
- + We recommend varnish and lacquers that are suitable for interior joinery. If using oils please contact Deanta for recommended brands.

Under our warranty, our liability is limited to replacing the door and no liability is accepted for any consequential costs. Alteration of a Deanta door will void the warranty.

* Warp/bow/cup/twist (as set out in the relevant British Standard) shall not be considered a defect unless it exceeds 1/4 inch (6.35mm) in the plane of the door itself. Warp is any distortion in the door itself and does not refer to the relationship of the door to the frame or jamb in which it is hung.
